

# Join the 14th International Winter Arrhythmia School

February 10-12, 2017

Collaborate with world-class faculty to engage in lively discussions and professional development through advanced sessions including a program on robotic magnetic navigation.

## Robotic Magnetic Navigation Program

- Experimental and clinical remote manipulation applications
  - Complex remote navigation procedures
    - Robotics in EP: a journal club
- EP nursing aspects of remote navigation
  - Live procedures broadcast
